

Outdoor Living 2026

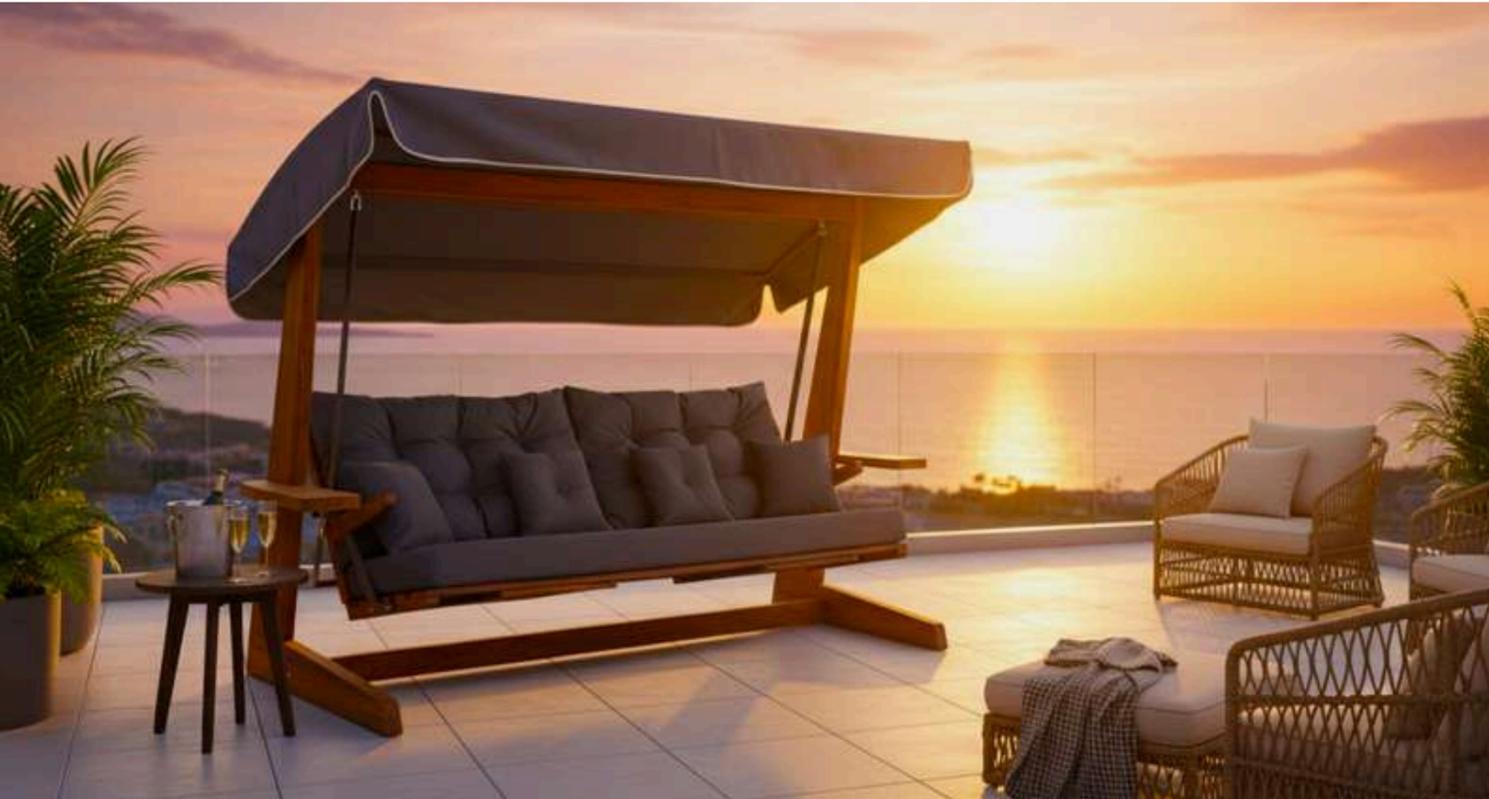

Premium Outdoor Swing Collection

Designed for serenity, built for trust.

PRESTIGE line

Luna 2600 Premium

Crafted from Africa's exotic Iroko wood, the Luna 2600 doesn't just complete your outdoor space; it gives it character. With its solid body, timeless design, and 550 kg load capacity, Luna is not just an ordinary swing; it is an open expression of strength, comfort, and confidence; designed not only for swinging, but also for stopping, lying down, breathing, and embracing the moment. A focal point in the garden, a new ritual on terraces, the most natural form of luxury in the open air.

Sia 2400

Crafted from Africa's exotic Iroko wood, Sia is the epitome of understated luxury outdoors. With its solid wood frame and balanced design, Sia offers a living space that exudes quality without being ostentatious. A natural focal point in the garden, a tranquil corner on the terrace, timeless comfort that accompanies daily life.

It expresses luxury not with loudness, but with natural elegance.

FUNCTIONAL comfort

Lyon 2400

Lyon stands at the pinnacle of our Scandinavian pine+spruce collection. With its robust architecture and premium finish, it offers grandeur beyond comfort. Designed for those who love the solid feel of solid wood.

Colour ● ●

Viva 2400

Viva 2400 is the definition of versatility. Its smart design, made from FSC-certified Scandinavian pine and spruce, allows it to transform from a swing to a sofa. With its water-repellent fabric and smart mechanism, it brings functional comfort to any garden.

Colour ● ●

Paris 2000

Paris embodies the essence of traditional outdoor comfort. Crafted from the same high-quality Scandinavian pine/spruce as its siblings, it features a more streamlined and timeless design. It offers a warm and inviting embrace that never goes out of style. A reliable choice for every family.

PREMIUM PROTECTION and DETAILS

WINTER COVER

the shield

Keep your swing safe even during hibernation. With its waterproof yet breathable special fabric, it provides superior protection against snow, rain, and dust. Thanks to the special stitching unique to our products, it won't open in the wind, extending the life of the wood.

MATERIALS

Our Iroko wood, also known as African Teak, has been selected for its density and natural durability. Thanks to its rich natural oils, it is inherently resistant to decay and harsh weather conditions. We extend its lifespan by treating it with organic protective oils.

African Iroko

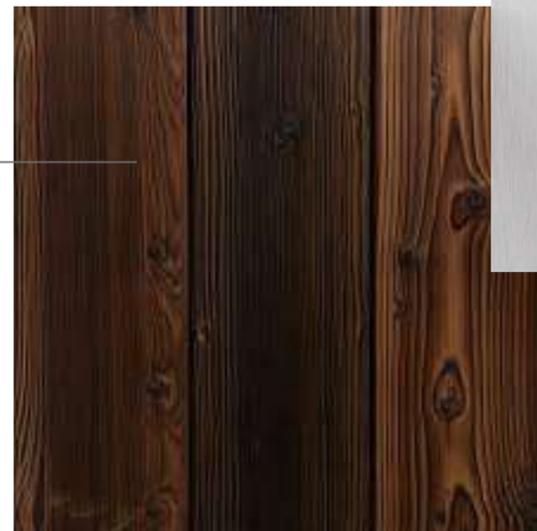

Premium Scandinavian wood with FSC-certificate

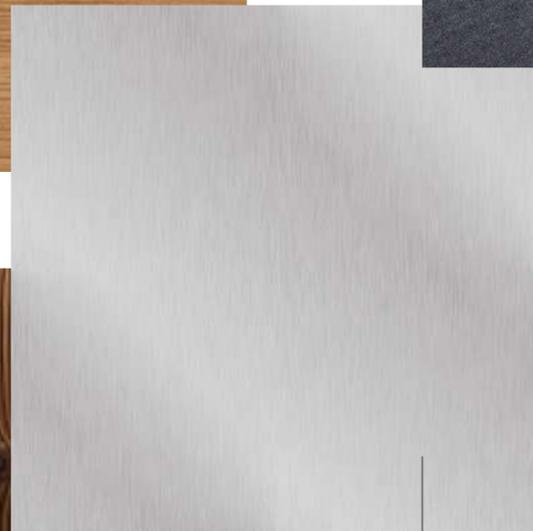

Our commitment to sustainability is certified. We use slow-growing Scandinavian spruce and pine sourced from responsibly managed forests.

It is valued for its tight fiber structure and flexibility.

It is reinforced with water-based preservatives.

REACH-compliant 1st class aluminum

Premium Outdoor Fabric

Comfort meets durability. Our cushions are covered with premium Soft Oxford fabric, specially designed for outdoor use. Thanks to its water and stain-resistant properties, cleaning is effortless.

With 80+ UV protection, it resists fading in the sun, keeping colours vibrant. Unlike standard polyester, its soft texture prevents sweating.

We use 6060 and 6063 aluminum alloys, which are standard for architectural facades in the Nova series. This high-quality composition creates a rustproof and maintenance-free frame. It is coated with 7016 RAL Anthracite electrostatic powder paint.

The Voices of Satisfaction

The product is very stylish and incredibly sturdy; it looks great in my garden. Installation was also easier than we expected. We had been researching for a long time, and when the product arrived, we realized what a great choice we had made.

H. K. Y. / Model: Luna 2600 Deluxe

The quality is way above the price. I bought it for my terrace and didn't want to get up once I sat down. The setup was much easier than I feared; my husband and I finished it in an hour. The cushion fabrics are incredible; it's hard to find such quality at this price.

Z. S. / Model: Paris 2000

A very high-quality product. The woodwork is excellent, the cushions are flawless. It looks first-class and very stylish. The assembly instructions are included in the package and are sufficient. The 'Camel' colour suits our terrace very well.

I. A. / Model: Sia 2400

The product is much more imposing and sturdy than it appears in the photos. The thickness and solidity of the wood can be felt even during installation. It has completely transformed the atmosphere of our garden and is well worth the money we paid for it.

M. T. / Model: Lyon 2400
